Introduction about Lofoten Mat, the local food network and summing up our experiences

What have we learned that can be used in developing eco friendly and economically sustainable SME s in the Baltic region.

Project meeting

4. The 2nd partner meeting will take place in April 2019 in Norway. Lofoten is chosen as an environmentally sensitive area with high tourist flows where lots of effort is put in sustainable and eco-friendly management. The meeting program would include a visit to best practice tourism businesses to observe sustainability aspects and source materials for learning contents. The partner meeting will also discuss the necessary details for development of on-line training parts (contents, on-line check list, printable reference handbook).
