

The European Green Belt

a product, an initiative or even a brand in tourism?

A panel discussion
with key players of the
European Green Belt

europeski zeleni pas

Črnozemni pas ima pomembno vlogo tudi pri svetovni razpisni konkurenci za evropski zeleni pas leta 2007. Na tem je bil postavljen temeljni cilj: razpisni projekti morajo biti uspešni in razvijati naravno dediščino Evrope od Barentsovega do Črnega morja.

A walking symbol of peace highlighting Europe's commitment to the sustainable development of its countryside and the safeguarding of its natural heritage. Since the fall of the Iron Curtain in 1989, there is a sense of a line running through the length of Europe, from Barents to the Black Sea, which remains conceptually undisturbed.

NORDISKA HOJA je splošno znano, enostavno, učinkovito in zdravilno obliko gibanja uporabno za vse. Vsežbirski delovanje srca, kosa telo in tudi duha. Slednosti tehnike hoje pomagajo izboljšati vodilni nordijske hoje. Svetujemo, da se pred prvo hojo ogreje z jogom, ki jo pričnemo na vrtičku. Vse hojne postaje bodo označene.

NORDIC WALKING is a well-known, easy and effective and healthful way of exercise. It stimulates heart, strengthens upper body and reduces stress. By Nordic walking we use special Nordic walking poles. Each step is implemented by Nordic walking gait. Don't forget, before starting you have to warm up. Here are some hints up associated with poles.
