Walking options in the vicinity of the country hotel:

- **A walk in the “Romantic Landscape Park” ~1-2 h**

The beautiful surroundings of the vivid Amata river bank became a popular destination at the end of the 18th century. Nature provided the unique conditions on the banks of the river Amata, near Kārļamuiža, to create a beautiful landscape park. The area is blessed with impressive sandstone and dolomite cliffs, breathtaking scenic vistas, bubbling streams, a choir of various birds, and primeval ravines.

Because of the area's likeness to the ideas of parks and gardens of the Age of Enlightenment, at the end of the 18th century an open planning landscape park was created in Kārļamuiža in accordance with the latest fashion requirements of the time. The owners of the manor carefully improved on the surroundings: hiking trails were created along the rocky cliffs of the nearby Amata, and an artificial waterfall and several romantic rest spots were built. The landscape park is an expression of the best taste and

understanding of beauty from the era.

The landscape park included the largest rock formations of the Devonian period and cliffs of the ancient valley; most of the plants and trails remain intact today. It is possible to walk the old park trails and see the impressive cliffs and rock formations along the Amata.

- **A walk to the “Ainavu precipice” (~1-2hours walk ca2,5 km)** which is the most significant natural object in the park. It is located on the bank of the river Amata, approximately 1 km from the “Kārļamuiža country” hotel, opposite the Kārļi fish hatchery (formerly the Kārļamuiža watermill), and between the homesteads “Ainavas” and “Klintslejas”. The Ainavu precipice is a 45m high and 500m long river bank precipice that reveals three rock formations: Bizene rock, Ainavu rock, and Ergli cliffs. These are some of the tallest rock formations in the Baltic States, and the Ainavu precipice is a state-protected geological monument. The precipice provides a stunning view of the ancient valley of the river Amata. The Amata hiking trail extends above the Ainavu precipice along the right bank of the river Amata.

- **Amata hiking trail** (15 km, ~5-6h hiking)

The Amata hiking trail in the Gauja national park is an incredible place for walks and nature discovery, exploring one of Latvia's deepest river valleys. The hiking trail invites you to discover the river Amata, one of the cleanest, roughest, and most rapid tributaries of the river Gauja. The river's name is taken from the Liv language (historical ethnic minority) word "Amada" meaning "rapid". The Amata hiking trail is an excellent location for hiking, relaxation, and nature studies. The river Amata flows through an ancient valley with steep (up to 45m high) sandstone and dolomite banks. The banks allow us to examine the past of planet earth as far as 350-400 million years ago when the area of Latvia was covered by the sea.

The trail extends along the right bank of the river Amata. We recommend starting your hike from the "Kāļamuiža" country hotel. From the hotel, the trail goes through the Kāļamuiža landscape park and along the right bank of the river Amata, from Ainavu precipice to Zvartes rock.

DINNER at “Kārļamuiža” country hotel restaurant

After walking the nature trails near the “Kārļamuiža” country hotel guests are welcome to enjoy dinner in the hotel restaurant. The restaurant is open for dinner from 19:00-21:00. The chef serves a 3-course dinner.

The restaurant is located in the building of the hotel. The restaurant’s hall is bright and spacious, and a fireplace gives the restaurant a special cosy atmosphere. An outdoor terrace overlooking a picturesque old apple orchard provides a unique and enjoyable dining experience during the warmer months. The restaurant provides table service.

Chef uses local, organic and seasonal ingredients to prepare meals – vegetables, herbs, and lettuce are grown in the hotel’s own garden. The restaurant has a “table d’hote” menu with set prices for a 3-course meal. Seasonal courses feature an excellent river trout, chicken or turkey, mushrooms and a salad or soup. The restaurant’s best desserts are made from seasonal ingredients such as strawberries, blueberries, rhubarb and apples, among others.

The most popular choices are oven-baked trout and pumpkin soup. In August and September you can enjoy delicious Boletus mushrooms sautéed simply with butter, braised in cream with new potatoes. Most popular desserts are prepared from apples grown in the old manor’s apple orchards or berries that are collected in the surrounding forests. The restaurant offers an extensive selection of wines and local beer.

Options after dinner in the hotel

Sauna

Sauna is located in a separate building - it is a small traditional sauna house.

Sauna gives relaxation after walking in the nature trails. It also strengthens one’s immune system and deeply cleanses skin. The host will show and explain what to do in the sauna.

Price for sauna rental is 58 EUR / 3 hours (for individual use).

!!!! The sauna should be booked in advance, at the time of booking of all services.

Overnight in the hotel

BREAKFAST at the hotel

After the breakfast guests can enjoy a peaceful morning at the hotel or go out for a walk in the surroundings of the hotel. After breakfast guests will get a lunch box to have lunch during a walk or on the way back to Riga.

RETURNING to Riga

The host Mrs. Baiba Stepiņa will bring guests to the bus or train station.
