

# Forest and Coastal Hiking Trails' accessibility improvement for different social groups

PP8 Häädemeeste

---

Presented By:

Aire Kallas-Maddison and Indrek Talts

# What we have promised

Accessibility solution for people with impaired vision will be implemented and piloted on the Coastal Hiking Trail (#31 "Ikla-Kabli") in Häädemeeste municipality. The solution will include an **audio guide for listening on site, information signs and boards** for sightseeing and service places adjusted for visually impaired persons, **short wooden trails** over spots of soft sand, and **some resting facilities**. The audio guide will highlight the **Livonian (Liivi) topic** as part of the local cultural heritage as this cross-border area, together with Northern Latvia, is the historical Northern-Livonia.

The accessibility solution will be piloted with the target group (ca 20 pers. from EE, ca 5 pers. from LV). Investment description is provided in the Investment section of this WP.

A photograph of a paved path leading to a park area with trees and a sign. The path is made of grey interlocking bricks and leads towards a green lawn with trees and a wooden signpost. In the distance, two people are visible near a body of water.

# Summary of our work

---

Determining the locations of audio guide information stands on the trail with GPS accuracy. Planning which maintenance work is needed at the future locations of audio guide information stands. Conducting procurements for the construction of rest areas and audio guide information stands, including the preparation of contracts and other documents. Presenting the audio guide texts to local history keepers and checking the factual accuracy of the texts with them. Editing the audio guide texts and recording the initial texts in the studio.

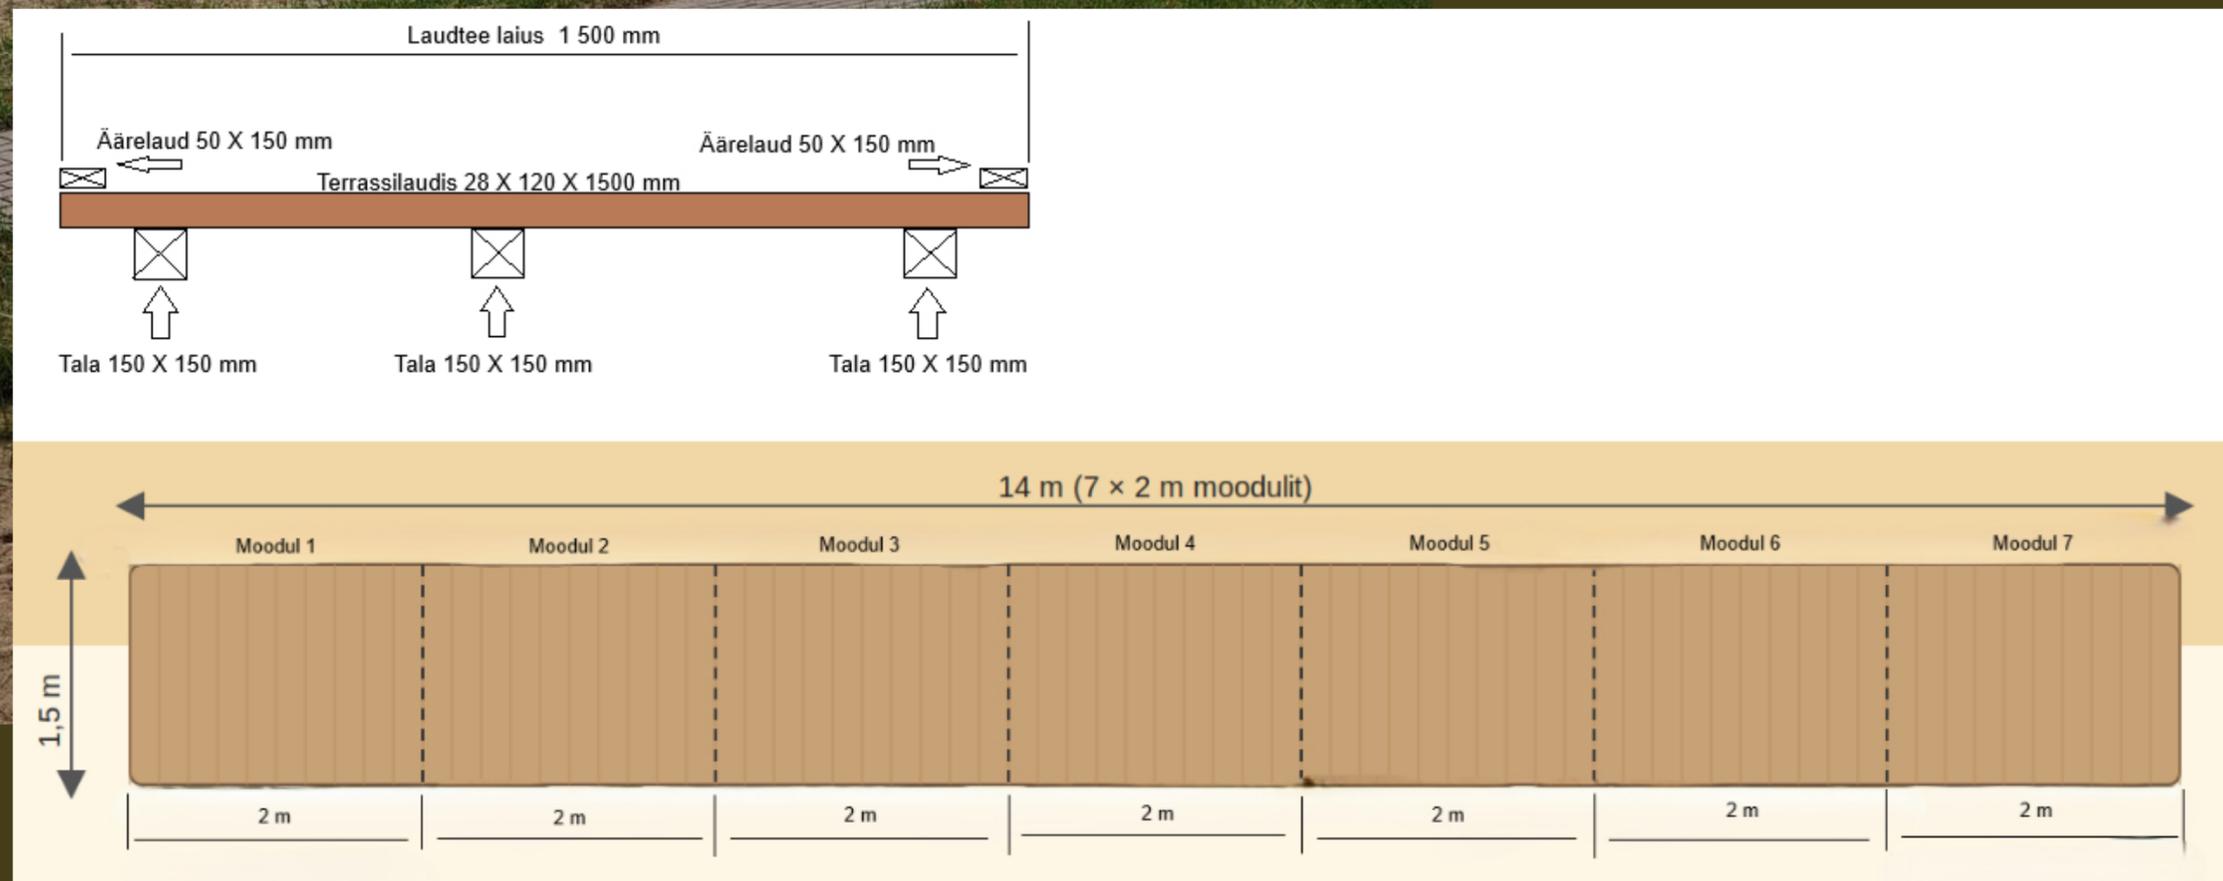

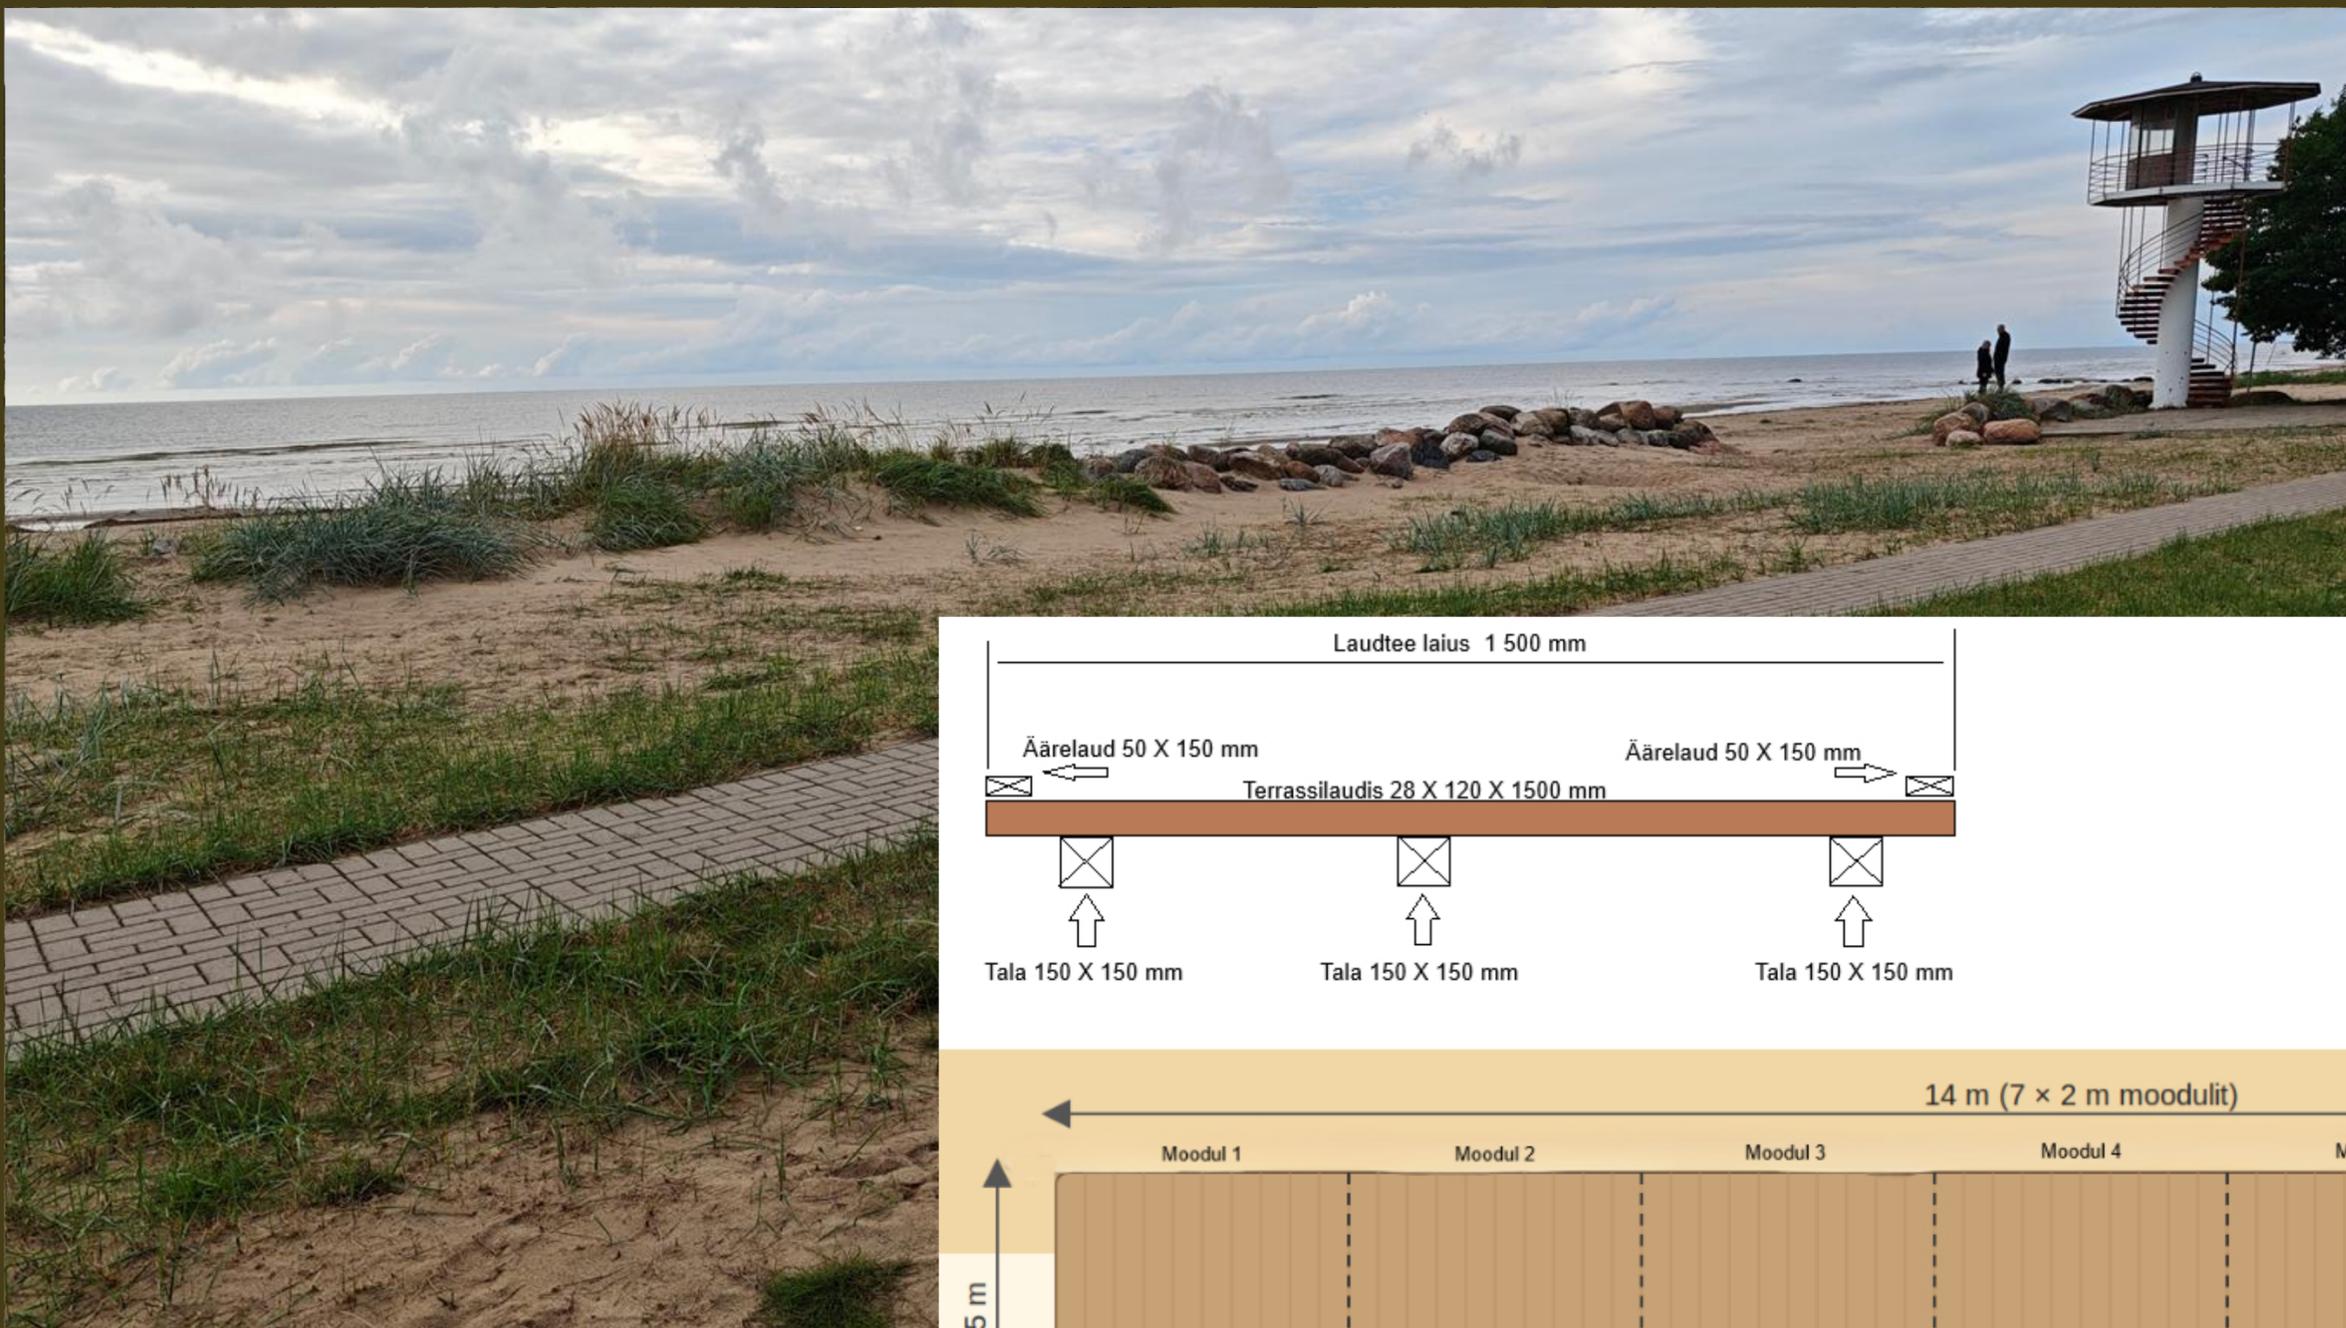

# Preparatory work for placing audio guides on the municipality's website and finding technical solutions.

A screenshot of the Häädeemeeste Vald website. The header includes the municipality logo and name, a search bar, and navigation links for various services. The main content area features an aerial photograph of a coastline and a list of links for the Ranniku matkarada. The text below the photo describes the route as part of the European long-distance trail E9, starting from Portugal and ending in Tallinn. A list of links follows, including 'Kabli Seltsimaja', 'Treimani', 'Treimani- rõivad, lihavõtted, linnud, merepulm', 'Kabli- kaptenid ja merekool', 'Kabli- Koterman', 'Kabli rand', 'Kabli linnujaam', 'Ikla', and 'Welcome to The Baltic Coastal Hiking Route'. At the bottom, there are links for 'Seotud viited' and 'Matkaraja veebileht'.

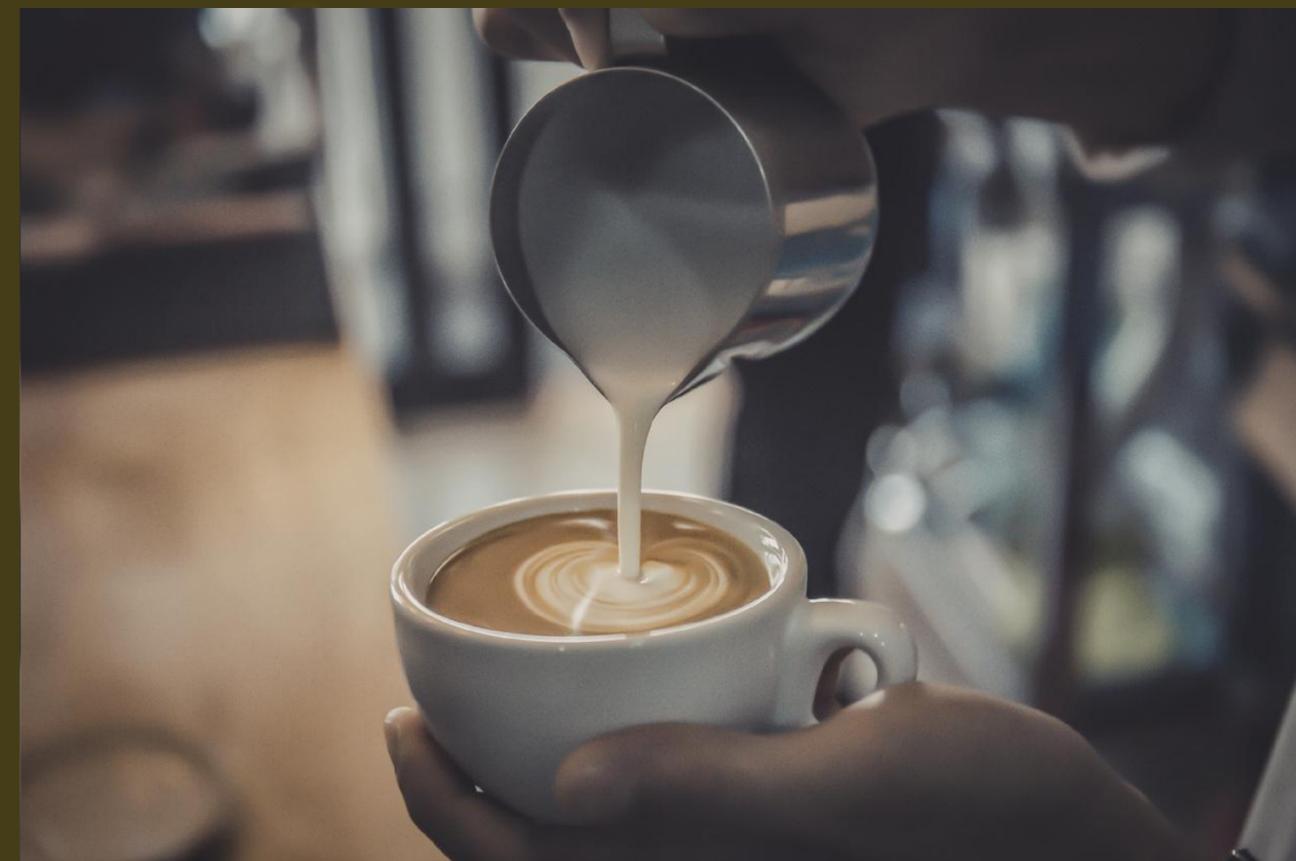

Accepting the wooden walkway built for access to the beach from the contractor - to be installed on 31.03.2026.

**Preparatory work and planning to carry out testing for piloting event for the target group in the first half of May.**

# Preparatory work and planning to conduct a training event for service providers in the second half of May.

**Cooperation and planning with the partner organization Estonian Rural Tourism Center to prepare a trail promotion workshop and hike.**

**Thank you!**
